## For Vivvo CMS Users

After installing plugin, a new button is added to editor toolbar - "Insert page break". Using it adds a new page break and thus creating multipage article.

The screenshot displays the Vivvo CMS editor interface. At the top, there are tabs for "Edit article", "Image gallery", "Attachments", and "Video Attachment", along with a "Need help?" link. The "Title" field contains the text "pagebreak", and the "Abstract" field contains "page break test...". The "Abstract image" field is set to "general.gif". Below these fields is a rich text editor toolbar with various icons for text formatting, alignment, and insertion. A callout box points to the "Insert page break" button in the toolbar. The main content area shows three pages: "page 1", "page 2", and "page 3". Two red "PAGE BREAK" markers are visible, separating the pages. Callout boxes labeled "page break" point to these markers. At the bottom of the editor, there are "Publish" and "Save" buttons.

## For Vivvo CMS Template Developers

### Example usage

Required **changes** compared to *default template*.

```
<div id="article_body">
  <vte:if test="{article.image}">
    <vte:if test="{multipage_article_page} = 1">
      <div class="image" style="width:{VIVVO_ARTICLE_MEDIUM_IMAGE_WIDTH}px;">
        
        <span class="image_caption"><vte:value select="{article.get_image_caption}" /></span>
      </div>
    </vte:if>
  </vte:if>
  <vte:if test="{multipage_article_page} = 1"><p><strong><vte:value select="{article.get_abstract}" /></strong></p></vte:if>
  <vte:value select="{article.get_body}" />
  <vte:if test="{article_navigation}">
    <div id="multipage-article-navigation">
      <vte:value select="{navigation_first}" />
      <vte:value select="{navigation_prev}" />
      <vte:foreach item="article_page_link" from="{article_navigation}">
        <vte:value select="{article_page_link}" />
      </vte:foreach>
      <vte:value select="{navigation_next}" />
      <vte:value select="{navigation_last}" />
    </div>
  </vte:if>
</div>
```

## Example details
